As a self-motivated and passionate student, I have taken the initiative to learn Django, a popular web development framework. I have acquired valuable skills in web development, problem-solving during my self-study journey.

EDUCATION

BSc. CSIT	kathmandu
Asian School of Management and Technology	Mar, 2021 - Present

+2 Science stream	kathmandu
Uniglobe SS/ college	Aug, 2018 - Aug, 2020

PROJECTS

Blog

I have made the website where user can login or register new account and can post the photo and people can like and unlike the post and also can comment in the post.
https://github.com/naresh1-23/django-posting.git

Appointment management

In this project admin can create appointment of different doctor and other users can book the appointment for given time
https://github.com/naresh1-23/django-AppointmentBooking

Real Time Chat app

In this project I have used django channel to handle Websocket.
https://github.com/naresh1-23/django-realtime-chatting-application.git

Ecommerce site

This is a simple ecommerce site where the owner can add the items with the quantity to sell and the customer can add the product to the cart and also can order the product if they want.
https://github.com/naresh1-23/django_ecommerce.git

Movie Ticket Booking site

It is a ticket booking app for the movies.
https://github.com/naresh1-23/movie-ticket-booking.git
